

Ecogrip® floor mats – prevent wear and tear, allow easy gliding

RS Office Products

ecogrip®

Mobility and comfort are standards of the present age. Functional swivel chairs facilitate easy movement in the modern company office or at home. In most cases the floor suffers from the constant tear and wear and many flooring systems considerably hamper the free movement of chair casters. Ecogrip® floor mats will put an end to this: Ecogrip® protects your flooring against wear and tear and makes your office chair glide easily.

The floor mats of RS Office Products are made from Makrolon®, a high grade resin, which can be recycled 100%. Thanks to its ecological sustainability Ecogrip® has been awarded the German environmental label »Blauer Engel«.

Makrolon®, a high-tech Polycarbonate made by Bayer, offers a wide range of exceptional properties that are particularly required for applications with a high level of quality and security. Makrolon® is also used for protective bicycle and ski helmets, automotive headlamps, lenses, stadium roofs and bulletproof screens. You will find more information on Makrolon® at www.makrolon.de.

The advantages at one glance:

- Transparent plastic sheet
- Made from high grade Polycarbonate, 100% recyclable
- Label of environmental protection »Blauer Engel«
- Easy gliding for caster chairs – meets or exceeds DIN 68121 for casters
- Extremely hard-wearing and durable
- Noise dampening
- Excellent adherence to the floor
- PVC-free and odourless – free of toxic chemicals
- Compatible with floor heating systems
- Meets or exceeds DIN 4102/B2 fire resistance classification
- Ideal for people suffering from allergies

The floor mat which protects the environment and your health

Ecogrip® prevents unnecessary wear and tear of your flooring material and guarantees full freedom of movement to your chair casters. With Ecogrip® floor mats your chair will perfectly glide over all flooring materials.

The transparent floor mats made from high grade Makrolon® are extremely hard wear and are very durable. Your floor will stand the most stringent demands as the caster load, UV radiation or even burning cigarettes without any damage.

Ecogrip® Series 11 with anchor grips

On softer flooring such as carpets rounded anchor grips keep your mat in place.

Ecogrip® Series 12 with antiglide layer

A thermally welded VAB® antiglide foil guaranties perfect adherence to hard flooring .

Ecogrip® floor mats as against usual PVC/Vinyl mats are absolutely odourless and free of toxic chemicals. Thus they can especially be recommended for children and persons suffering from an allergy.

Ecogrip® is made out of Makrolon®. This high-tech material is absolutely resistant against breakage and impact and offers an extremely long life of use. Additionally Makrolon® is entirely recyclable and thus contributes to an economical use of those raw-materials presenting the necessary resources for the production.
